#### **Management Summary**

A few issues have popped up since the last inspection but nothing major that requires immediate attention.

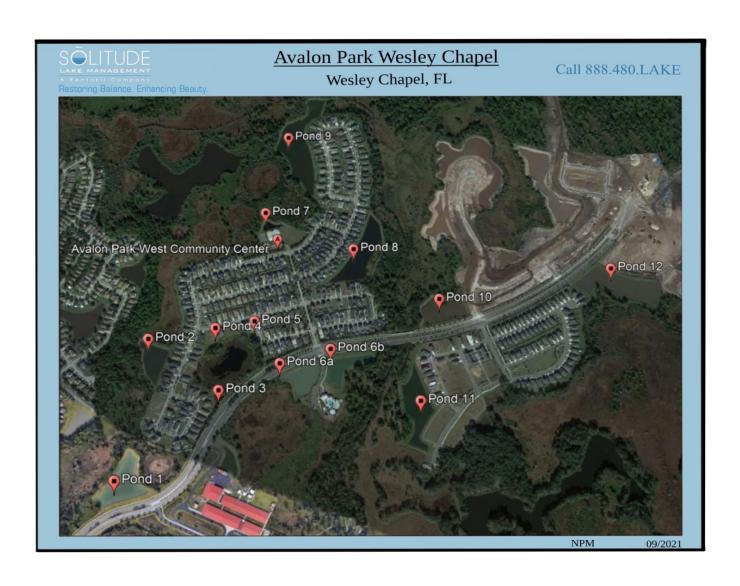

Sites 2 & 5 have some shoreline weed growth. Site 2 it is pretty consistent along most of the perimeter while site 3 is limited to a small patch of pennywort in a corner.

Algae has cropped up along the perimeter of site 10. It's a very green and fluffy seasonal algae that should be pretty easy to gain control of.

All of the other sites were in good condition.

Thank You For Choosing SOLitude Lake Management!
